Hybrid Theory

A Tribute To Linkin Park

About

Formed back in 2009 to pay tribute to one of the best selling bands of the Nü Metal movement. Hybrid Theory quickly became well known throughout North and South America.

With lead singer Logan Levine taking his part serious about replicating what Chester Bennington was about and the Kyle Small belting out the vocal styles of Mike Shinoda the pair together are unstoppable. The band itself became super tight as a unit by making sure to replicate the tones created by Linkin Park.

Taking the passing of Chester Bennington very hard the band strives to recreate what Linkin Park has brought to the masses by paying tribute to one of the best singers and band of the Nü Metal era!
