# The Doves of Peace

Tribute to 80 Hair Metal

## About

Born from the chaotic brilliance of Peacemaker & DC Studios, The Doves (short for the Doves of Peace ) made their thunderous debut at Peacefest during San Diego Comic-Con 2025. Performing 12 high-octane shows to thousands of die-hard fans, the band proved that peace doesn't have to be quiet—it can be loud, proud, and covered in spandex.

Billed by James Gunn, DC Studios, and HBO Max, The Doves of Peace are on a mission to resurrect the wild, unapologetically over-the-top spirit of 1980s glam metal.

The Lineup & The Vision
Founded by Randy Paul in 2024, the band features a powerhouse lineup of elite musicians handpicked from the world’s top touring tribute acts. Together, they deliver an explosive, arena-sized spectacle defined by:

Massive Energy: A high-voltage performance that captures the lightning-in-a-bottle feel of the Sunset Strip.

The Look: Big hair, leather, and enough eyeliner for everyone

The Sound: Screaming guitar solos, thunder drums & bass and all those legendary 80's sing along anthems

A Love Letter to 80's Metal
Every show is more than just a concert; it’s a high-octane tribute to an era when rock was king and every chorus demanded a shout-along. Whether you're there for the nostalgia or the pure, unadulterated volume, The Doves of Peace ensure the spirit of '80s metal is flying high again

The Setlist: All Killer, No Filler
The Doves deliver an explosive, arena-sized spectacle centered on the legendary anthems that defined a generation. Their show is packed with the greatest hits of the '80s, performed with professional flair and massive energy, featuring the music of:

Bay Area Icons: Experience the soaring melodies, technical mastery, and heavy-hitting power of Metallica, Y&T, Journey, and Night Ranger.

LA Legends: Feel the grit and glamour of the Sunset Strip with the high-voltage sounds of Mötley Crüe, Ratt, Van Halen, Guns N’ Roses, and the modern-day torchbearers Steel Panther.

'80s Metal Legends: Sing along to the polished, massive choruses and heavy-hitting anthems of Def Leppard, Bon Jovi, Poison, Skid Row, Europe, Whitesnake, Ozzy Osbourne, and the high-octane energy of Wig Wam.

Thinking
